Volume 44

Tetra- <i>n</i> -propylporphycene as a tumour localizer: pharmacokinetic and phototherapeutic studies in mice M. Guardiano, R. Biolo, G. Jori and K. Schaffner (Padova, Italy and Mulheim, F.R.G.)	1–6
Evaluation of sulfonated aluminum phthalocyanines for use in photochemotherapy. Cellular uptake studies K. Berg, J.C. Bommer and J. Moan (Oslo, Norway and Logan, UT)	7–15
Induction of differentiated phenotypes in melanoma cells by a combination of an adenosine 3',5'-cyclic monophosphate stimulating agent and D- α tocopheryl succinate K.C. Prasad (Denver, CO)	17–22
Altered methionine metabolism in metastatic variants of a human melanoma cell line R.G. Liteplo (Ottawa, Canada)	23–31
Stabilization and quantitative analysis of fecapentaenes in human feces, using synthetic fecapentaene-12 J.C.S. Kleinjans, M.H.M. Pluijmen, G.J. Hageman and H. Verhagen (Maastricht, The Netherlands)	33–37
Dietary ellagic acid reduces the esophageal microsomal metabolism of methylbenxynitrosamine D.H. Barch and C.C. Fox (Chicago, IL)	39–44
The effect of breast tumour and normal breast tissue cytosols on oestradiol 17 β -hydroxysteroid dehydrogenase activity A. Singh, M.J. Reed, M.W. Ghilchik and V.H.T. James (London, U.K.)	45–48
Combination effects of human recombinant interferon (α -2-arg, γ) and cytotoxic agents on colony formation of human melanoma and hypernephroma cell lines D.M. Nachbaur, H.A. Denz, G. Gastl, J. Thaler, M. Lechleitner and H. Braunsteiner (Innsbruck, Austria)	49–53
The role of polyamines in interferon and retinoic acid mediated synergistic antiproliferative action C. Marth, P. Kirchbner and G. Daxenbichler (Innsbruck, Austria)	55–59
Selective growth inhibition of ductal pancreatic adenocarcinoma cells by the lysosomotropic agent chloroquine H.U. Zeilhofer, J. Mollenhauer and K. Brune (Erlangen, F.R.G.)	61–66
Natural killer sensitivity of four Bomirski melanoma variants J. Bigda, A. Myśliwska, J. Myśliwska, J. Witkowski, Z. Kmieć and A. Bomirski (Gdansk, Poland)	67–72
Effect of tumour location on selective uptake and retention of phthalocyanines W.-S. Chan, J.F. Marshall and I.R. Hart (London, U.K.)	73–77
Announcements	79–80
Erratum	81
In vivo effect of dietary factors on the molecular action of aflatoxin B ₁ : Role of vitamin A on the catalytic activity of liver fractions R.K. Bhattacharya, A.L. Prabhu and V.S. Aboobaker (Bombay, India)	83–88
Inducibility of glutathione S-transferases in hamsters Z. Gregus, C. Madhu and C.D. Klassen (Kansas City, KS)	89–94
Lack of initiating activity of the peroxisome proliferator ciprofibrate in two-stage hepatocarcinogenesis H.P. Glauert and T.D. Clark (Lexington, KY)	95–100
Alterations in plasminogen activator and inhibitor activity during the differentiation of a human neuroblastoma cell line, SMS-KAN L.A. Benjamin, R.C. McGarry and D.A. Hart (Calgary, Canada)	101–108
Characterization and mutagenicity of 1-nitrosotryptophol 6-nitrotryptophol possible genotoxic substances associated with smoking and alcohol consumption K. Tanaka, B. McConnell, W.P. Niemczura and H.F. Mower (Setogaya, Japan and Honolulu, Hawaii)	109–116

Effect of dietary linoleic acid level on lodgement, proliferation and survival of mammary tumor metastases N.E. Hubbard and K.L. Erikson (Davis, CA)	117-125
Characterization of two monoclonal antibodies that recognize high molecular weight colon antigens J.P. Moosic, A.M. Mosley, K. Huang, C.W. Taylor and L.C. Yoeman (Chicago, IL and Houston, TX) ..	127-136
Modulation of murine melanoma growth by naloxone A.J. Murgo (Morgantown, WV)	137-142
The high sensitivity of cells transformed by E1A gene of adenovirus type 12 to diacylglycerol-mediated cell killing H. Shimura, A. Matsuzaki, K. Shiroki, M. Ohtsu, K. Fujinaga, K. Onodera and G. Kimura (Fukuoka, Sapporo and Tokyo, Japan)	143-149
Prolonged survival and vascularization of xenografted human glioblastoma cells in the central nervous system of Cyclosporine A treated rats T. Mathiesen, V.P. Collins, L. Olson and L. Granholm (Stockholm, Sweden)	151-156
Photosensitization of Wi26-VA4 transformed human fibroblasts by low density lipoprotein loaded with the anticancer porphyrin mixture photofrin II: evidence for endoplasmic reticulum alteration C. Candide, J.C. Mazière, R. Santus, C. Mazière, P. Morlière, J.P. Reyftmann, S. Goldstein and L. Dubertret (Paris and Créteil, France)	157-161
Announcements	163-165
Modulation of flavocoenzyme levels in rat tissues by <i>N</i> -nitrosodiethylamine V.S. Aboobaker and R.K. Bhattacharya (Bombay, India)	167-171
In vitro morphological changes induced by 4-(methylnitrosamino)-1-(3-pyridyl)-1-(butanone) in fetal hamster respiratory tract tissue P.A. Joshi, H.M. Schuller, G. Rossignol and A. Castonguay (Knoxville, TN and Quebec, Canada)	173-178
Early systemic effects on the hepatic mitochondria of tumour bearing mice J.L. Urdiales, M.A. Medina, I. Núñez de Castro and F. Sánchez-Jiménez (Malaga, Spain)	179-183
Selective fractionation of hypoxic B16 melanoma cells by density gradient centrifugation M. Fornabaio, Y.S. Kim and C.W. Stackpole (Valhalla, NY)	185-190
Over expression of proto-oncogenes: <i>ki-ras</i> , <i>fos</i> and <i>myc</i> in rat liver cells treated in vitro by two liver tumor promoters: phenobarbital and biliverdin C. Lafarge-Frayssinet and C. Frayssinet (Villejuif, France)	191-198
Inducibility of thymic lymphomas in female Hsd: (ICR)BR mice following subcutaneous injection of ethyl- and isopropyl methanesulfonate A. Segal and A. Sellakumar (New York, NY)	199-204
Tumoricidal interactions of hyperthermia with carboplatin, cisplatin and etoposide J.D. Cohen, H.I. Robins and C.L. Schmitt (Madison, WI)	205-210
Identification in rats of <i>N</i> -nitrosonipecotic acid as a major urinary metabolite of the areca-nut alkaloid-derived nitrosamines, <i>N</i> -nitrosoguvacoline and <i>N</i> -nitrosoguvacine H. Ohshima, M. Friesen and H. Bartsch (Lyon, France)	211-216
Effects of a triazine antifolate (NSC 127755) on serine hydroxymethyltransferase in myeloma cells in culture K. Snell and D. Riches (Surrey, U.K.)	217-220
Long-term carcinogenicity of cyclophosphamide in two mouse strains with different spontaneous leukemia incidence E. Petru, M.R. Berger and D. Schmähl (Heidelberg, F.R.G.)	221-226
Inhibition of tumor cell proliferation by a novel growth regulator from placenta: modulation of membrane phosphorylation and oncogene expression U. Csaikl, F. Csaikl and K. Letnansky (Vienna, Austria)	227-231
Corrigendum	233
Announcements	235
Subject Index Volume 44	237-240
Author Index Volume 44	241-242
Contents Volume 44	243-244
